**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

**Continuation of 3:** As amended the claims require (a) a quantitative relationship between the number of syringes and the number of nozzles and (b) a specific relationship between the nozzles of the syringe at the dispensing portion and the size of the liquid crystal display panel. These limitations were not present in the previously drafted claims as such, the amended claims would require further search and consideration.

**Continuation of 11:** Applicant's arguments are directed to the amended claim language and as such, are not commensurate in scope with the claim language of the pending claims.

/Justin R Fischer/

Primary Examiner, Art Unit 1791
